- **Operations & Maintenance contractor:** Vestas Australian Wind Technology
- **Energy off-taker:** ACT Government
- **Expected construction commencement:** Q1 2021
- **Expected operations commencement:** Q3 2022

Community Update

Community Engagement Committee: Global Power Generation has received several applications from local community members wishing to become a part of the Community Engagement Committee for Berrybank Stage-2 Wind Farm. These applications have allowed us to move forward to setting up the Community Engagement Committee by the first scheduled meeting of the Berrybank Stage-2 Wind Farm Community Engagement Committee in April 2021. GPG would like to thank everyone that has expressed interest and applied for a position on the Community Engagement Committee and encourage anyone else that interested in shaping the future of the Berrybank Wind Farm Community Programs to please get involved and apply to join the committee.

Construction Update

Contractors Arriving: In anticipation for the beginning of construction of Berrybank Stage-2 Wind Farm we are now seeing the arrival of the new contractors that will be working on the project. In preparation for the start of the civil construction (access tracks, hardstands, and turbine foundations) expected to be by the end of February, Bilbey is currently performing preliminary works. During the height of construction, we can expect to have between 100 and 150 staff on-site, which we would expect this to provide a boost in traffic for the local café's and stores in the towns closest to the Wind Farm.
